SUMMARY

Enthusiastic and detail-oriented MERN Stack Developer with strong foundations in MongoDB, Express.js, React.js, and Node.js. Passionate about building scalable, user-friendly web applications and eager to apply academic knowledge and personal projects to real-world challenges. Seeking an entry-level position to contribute to innovative projects, enhance my skills, and grow as a full-stack developer.

EXPERIENCE

Freelance Web Developer

Self-Employed | Remote |

- Priyanshi Driving School Website – Designed and developed a responsive website for a driving school to showcase services and contact forms.
- Photography Portfolio Website – Built a Landing Page photography website with modern UI to display galleries and improve client's online presence. Utilized technologies like HTML, CSS, JavaScript, React.js, Node.js, and MongoDB.

PROJECTS

Photography-web

[Link->](#)

- Designed and developed a dynamic photography portfolio website using HTML, CSS, JavaScript, and ReactJS.
- Integrated ReactJS components for modular development and improved code maintainability.
- Showcased the final project in a digital portfolio with client-ready presentation quality.

Priyanshi Driving School

[Link->](#)

- Designed and developed a professional website for a driving school using HTML, CSS, JavaScript, and ReactJS.
- Created structured sections for services, course details, instructor profiles, and contact forms.
- Embedded Google Maps to display the school's exact location for easy navigation.

Ecommerce website

[Source Code->](#)

- **Tech Stack:** Node Js, Express Js, Bootstrap CSS, Auth, MongoDB.
- Frontend development using React js for creating interactive, intuitive and responsive user interfaces. Backend implementation built using Node.js and Express.js to handle API integrations, and database operations. Database management utilized MongoDB as the database to store and manage product information and user data. User authentication: Implemented user authentication and authorization and JWT.
